BUREAU OF PLANT INDUSTRY, Horticultural Investigations.

PLANTING FOR PLEASURE OR PROFIT

Excellence compels its own reward. Inferiority begs unheeded. In all things the world seeks merit—and gladly pays its price. The markets of the earth are never glutted with the good and the worthy—whether wares of factories, objects of art or fruits of vine and tree. The golden wine of Champagne, the fragrant tobacco of Cuban furrows, Kentucky's blooded horses, the aromatic spices of India or Ceylon tea of ancient lineage—alike command their own prices in all the ports of the seven seas.

Their dominance is of excellence—and their excellence is of breed.

Even so, in fruit or flower, vine or tree, the price you receive for your harvest, or the pleasure and satisfaction you derive from it, will measure greater or less—according to the quality of your planting.

To grow excellence—plant excellence.

This first and ancient rule of husband was hoary with antiquity when the pyramids were reared in the

olden valley of the Nile. Today, as then, strength comes only from the strong.

SPECIAL

Packing FREE. Certificate of inspection with each order.

Terms-Cash or one-fourth cash, balance C. O. D.

Additional—Add 25 per cent if to be planted by us and replaced next year free.

HEDGE PLANTS

PRIVET, California—The finest all purpose hedge. The most most popular and most beautiful hedge grown. A pretty shrub with smooth, shining leaves, of unusual beauty. For the ornamental hedge there are many plants that may be used with happy results, but the great demand for California Privet proves it to be the most popular and satisfactory of the hedges. 1 year old plants, 12 to 18 inches, \$6.00 per 100; \$50.00 per 1,000; 2 year old plants, 18 to 24 inches, \$8.00 per 100, \$70.00 per 1,000; 2-3 ft., \$10.00 per 100.

PRIVET, Amoor River-Hardy for northern climates. It is of similar form and habit to the well known California type; the foliage is not quite so glossy. 1 year old plants, \$10.00; 2 year old plants, \$12.00 per 100.

ORNAMENTAL SHRUBS OF QUALITY

Almond

ALMOND—Double White and Double Pink. Early spring flowering shrub. Dwarf, bushy, compact. Double flowers of rose and white, 75c each.

FLOWERING PLUM, Prunus Pissardi (Purple Leaved Plum)—Handsome little tree, white single flowers in the spring, pinkish-purple leaves. 3 to 4 ft., \$1 each.

FLOWERING PLUM, Triloba (Double)—Grows to 4 ft. spreading growth, pink blossoms. 2 to 3 ft., \$1 each.

Shrubs can be planted spring or fall, each season having its advocates. A certain amount of pruning is necessary and before planting the tops should be cut back so that it will not demand more nourishment than the roots can supply, until they have become attached to their new environment, but as far as possible this should be done to preserve their natural beauty. There is no home or farm in the whole country which cannot be improved in appearance and enhanced in value by the planting of appropriate shrubs and plants.

Shrubs 50c each, except where noted,

HYDRANGEA, Arborescens Grandiflora—Very hardy, blooms July to Sept. White flowers, 50c each.

blooms July to Sept. White flowers, 50c each.

HYDRANGEA, Arborescens Grandiflora—Very hardy, of white cone-shaped flowers Aug.-Sept., changing to pink and bronze green. 50c each.

HYDRANGEA TREE—The above Hydrangea in tree form. 3 to 4 ft., \$1.50 each.

HONEYSUCKLE, Tartarica (Bush Form)—Beautiful pink flowers, bright green foliage, orange or red berries in autumn. 50c each.

pink flowers, bright green foliage, orange or red berries in autumn. 50c each.

HIGH BUSH CRANBERRY, Virburnum Opulus—Brilliant foliage, crimson berries. 50c each.

HYPERICUM AUREUM (St. John's Wort.)—Showy shrub of stiff dense habit; foliage bluish; flowers golden yellow, Aug. Oct. 75c each.

JAPAN QUINCE, Cydonia (Burning Bush)—Covered with searlet flowers in spring, fragrant. 50c each.

JAPANESE PAGODA TREE—Dense, round headed tree, dark green, glossy foliage; flowers pea shaped in loose panicles. 75c each.

KERRIA, Japonica—Upright shrub, slender green branches. Flowers double, yellow. 75c each.

KERRIA, White—Attractive shrub 3 to 6 ft. tall, good foliage. large single white flowers in May. 50c each.

LABURNUM, Golden Chain—Small tree; long racemes of golden yellow blossoms in June; smooth, shining foliage; does best in shade. 75c each.

MAPLE, Acer Palmatum (Japanese Maple)—Handsome shrub of dense, graceful habit; attractive foliage, leaves assume striking tints. 12 to 15 in., \$1.50 each.

 $\begin{array}{lll} \textbf{SNOWBALL}, & \textbf{Sterile} - \textbf{Well} & \textbf{known} & \textbf{common} & \textbf{snowball}, \\ \textbf{great clusters of white flowers}, & \textbf{50c each}. \end{array}$

SNOWBALL, Plicatum (Japan)—Of better habit than the old familiar form with plicate leaves and more delicately formed white flowers, red fruits. 75c each.

SNOWBERRY, Racemosus—Rose-color flowers in June and July; leaves thin, dark green; fruits milk white. 50c each.

50c each.

SNOWBERRY, Vulgaris (Coral Berry or Indian Currant)—Like Snowberry, except red fruits, clustered along the stems which droop with the weight. 50c ea.

SMOKE TREE (Purple Fringe)—Unique, spreading tree, large leaves; mist-like flowers, having the appearance of smoke. 75c each.

SPIREAS

Spirea, Aurea—Upright grower with bright yellow fol iage. Very striking variety, 50c each.

Spirea, Anthony Waterer—Bushy, spreading dwarf, is covered with crimson flowers July-Aug. 50c each.

spirea, Anthony Waterer—Bushy, spreading dwarf, is covered with crimson flowers July-Aug. 50c each.

Spirea, Billardi—Narrow, dense shrub, 6 ft. high, rich pink flowers July-Aug. and in fall. 35c each.

Spirea, Bumulda—Dwarf but vigorous, spreading; dark narrow foliage; pink cone-shaped flowers. 35c each.

Spirea, Prunifolia (Bridal Wreath)—Earliest of double Spireas. Small, double white flowers, giving a plume-like effect. 35c each, \$3.50 per dozen.

Spirea, Reevesii—Handsome shrub, narrow foliage, pure white large flowers. 50c each.

Spirea, Thunbergi—Dense, puffy bush; foliage yellowish green; flowers pure white. 50c each.

Spirea, Van Houttei—Finest ornamental shrub, covered with a perfect mass of pure white flowers in spring, with branches bending to the ground. Much used for hedges. 35c each, \$3.50 per dozen; \$25.00 per 100; 3-4 ft.

SYRINGA, Lilac—Of delicate beauty; very fragrant in spring; perfectly hardy. Clors red, white and purple. 50c each.

TAMARIX. Africana—Tall shrub, 8 to 10 ft.; fine feathery foliage like Juniper. Small unusually bright pink flowers in April and May. Splendid for damp places. 50c each.

TAMARIX, Odessana—Gracefully bending, silver-green foliage; loose racemes of pink flowers: late, 50c each.

April and May. Splendid for damp places. 50c each.

TAMARIX, Odessana—Gracefully bending, silver-green foliage; loose racemes of pink flowers; late. 50c each.

WEIGELIA, Candida—Extra choice vigorous sort, yields one profuse crop of white flowers in June, lighter ones at intervals throughout summer. 50c each.

WEIGELIA, Rosea—Tall growing, vigorous sort with deep pink flowers. 50c each.

WEIGELIA, Variegata—Neat dwarf habit with pink flowers, variegated leaves, margined with creamy white. Most useful variegated-leaved shrub. 50c each.

WEIGELIA, Eva Rathke—6 to 8 ft. Charming variety: bright

WEIGELIA, Eva Rathke—6 to 8 ft. Charming variety; bright crimson flowers. Blooms all summer. 75c each. WITCH HAZEL, Virginiana—Hardy ornamental shrub, de-ciduous alternate leaves. Bright yellow flowers Sept. Nov. Valuable for blooming when hardly any other shrub does.

PHILADELPHUS, Coronarius (Mock Orange)—Popular shrub, fine form; white flowers, early, 50c each.
PHILADELPHUS, Aurea (Golden Mock Orange)—Similar to above except the foliage is a beautiful golden color. 75c each.
PHILADELPHUS, Grandiflora—Vigorous upright variety with large flowers in June, grows rapidly. 50c each.
RED BUD (Judas Tree)—Small growing tree, heart-shaped leaves, delicate pink blossoms in spring. Makes a fine ornamental tree. 50c each.
RHUS. Aromatica or Sweet Sumac—Spreading shrub, small yellow flowers, thick, fragrant foliage. 50c each.
ROSEMARY WILLOW—Small tree with symmetrical, round top, leaves long and narrow bright green above and silvery white beneath. 50c each.

HARDY VINES

CLEMATIS, Jackmanni — Immense flowers of an intense violet pur-ple. Blooms all summer. 75c each.

CLEMATIS. Henryi Flowers are creamy white and very large. A free bloomer. 75c each.

CLEMATIS, Madam Andre—Color a distinct crimson red. Is different from all other varieties, 75c each.

CLEMATIS, Ramona—Flowers deep rich lavender, Vigorous grower, nerpetual bloomer, 75c each.
CLEMATIS, Paniculata — White flowers in masses, Rapid grower, closer foliage, 50c each.

clossy foliage, 50c each.
DUTCHMAN'S PIPE, Sipho—Rapid climber, light green foliage;
yellowish-brown flowers, 50c each.

HONEYSUCKLE, Hallianna—White and creamy yellow flowers; very fragrant. 25c each.

VEITCHII, Boston Ivy—Valuable for covering brick, stone. Leaves overlap, dark green. 25c each.

KUDZU VINE—Grand, hardy climber. Large foliage, dense shade, rosy-purple flowers. 25c each.

MATRIMONY VINE, Chinese — A trailing vine, grayish green flowers June to Sept. 25c each.

MADERIA VINE—Rapid growing

MADERIA VINE—Rapid growing vine, dense foliage, featherv white flowers. Tubers 10c each; doz., \$1. CELASTRIS. Bitter Sweet—Hardy ornamental vine, bright colored fruit. Fine for trellis, 35c each.

HARDY ORNAMENTAL GRASSES

Requiring so little care and considering its attractiveness, every garden should have one or more varieties of ornamental grass.

Divided clumps, 25c each; \$2.50 a dozen. Large clumps, 50c each. Eulalia Gracillima Univittia (Japan

Rush). Japonica Variegata—Hardy, leaves

narrow, dark green.

Japonica Zebrina (Zebra Grass)—
Foliage green, banded with white,
Phalaris (Ribbon Grass) — Green
leaves striped lengthwise with
creamy white.

Spirea Van Houttei

KENTUCKY NURSERY COMPAN'

The beauty of grounds that are planted with taste and given proper care appeal to most people, yet many fail to discover that they can make their home equally beautiful. They have perhaps tried planting a few shrubs or roses in a thick turf and without giving attention to either cultivation or pruning, have wondered at their lack of success. Beautiful surroundings need not appeal to our taste for the beautiful only, but from a commercial standpoint, beautifying the home greatly adds to its value. Let your slogan be "Plant More Trees This Year."

CATALPA BUNGEII—A remarkable species forming MAPLE, Schwedleri a dense, round, umbrella-like head, makes an umbrella-shaped top without pruning. Perfectly hardy and flourishes in almost all soils and climates. 6 to way Maple's leaves attract at leaves at tract at the control of the control

and flourishes in almost all soils and climates. 6 to 8 feet. \$2.50.

CATALIPA SPECIOSA—One of the most rapid growers. Valuable for timber, fence posts, rairoad ties, etc., possessing wonderful durability. 6 to 8 feet, 75c; 8 to 10 feet, \$1.00.

ELM, AMERICAN WHITE—Magnificent tree growing 80 to 100 feet tall with drooping, spreading branches; one of the grandest of our native trees. 8 to 10 feet, \$1.00; 10 to 12 feet, \$1.50.

CHESTNUT, HORSE—Handsome tree with showy foliage and covered in the spring with panicles of white flowers marked with red. As a lawn or street tree it has no superior. 6 to 8 feet, \$1.50; 10 to 12 feet, \$2.00.

LINDEN, American or Basswood—Grows fast, forming a large, upright, spreading tree; leaves are large and cordate, flower-like yellow, delightful citron odor. 8 to 10 feet, \$1.50.

MAPLE, Norway—Native of Europe. Large, handsome tree, with broad, deep green, shining foliage. Very desirable for street, park or lawn. The Norway Maple characteristically makes the roundest head. 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00; 2 to 2½ inch caliper, \$3.00.

—The Purple Norway Maple's leaves attract attention at all seasons, but are especially fine in the spring, when their gleaming red and purple contracts with the spring with attacts.

gleaming red and
purple contrasts
brightly with the
delicate green of
other trees. 8 to
10 feet, \$3.00; 10
to 12 feet \$4.00.

MAPLE, Soft or Silver Leaved—Rapid growing tree,
large size, irregular, rounded form; foliage bright
green above and silver beneath. 8 to 10 feet, \$1.00;
10 to 12 feet. \$1.50.

10 to 12 feet, \$1.50.

MOUNTAIN ASH—Hardy tree. Head dense and regular; beautiful, fern-like, green foliage; covered from July till winter with clusters of bright red berries. 8 to 10 ft., \$1.50.

OAK, Red—A large tree. Unusually large in leaf and quick in growth. The young shoots and leaf stems are red, the foliage purplish crimson in autumn. A beautiful object on the lawn. 8 to 10 feet, \$2.50.

Spirea Van Houttei and Barberry Planting, \$5.00 per dozen

POPULAR, Carolina—Pyramidal in form and vigorous in growth. Leaves large, glossy, pale to deep green. 6 to 8 feet, 50c; 8 to 10 feet, 75c; 10 to 12 feet,

\$1.00.

POPLAR, Lombardy—Remarkable for its picturesque, tall, spiral-like form. Useful in landscape effect and forms striking lawn groups. 6 to 8 feet, 50c; 8 to 10 feet, 75c; 10 to 12 feet, \$1.00.

TULIP TREE—One of the grandest of our native trees. Of tall, pyramidal habit, with broad, glossy, fiddle-shaped leaves. 6 to 8 feet, \$1.00; 8 to 10

NUT TREES

Every farm contains some land that should be planted to nut trees. Nut trees are very ornamental as well as valuable for their crops of nuts. The lumber obtained from these stately trees is in great demand and as a result the prices always head the market.

CHESTNUT, American Sweet—Valuable native tree, useful and ornamental. Timber very durable and fine grain. Nuts are sweet, of delicate flavor. 6 to 8 feet, \$1.50 each.

FILBERT (Hazelnut)—Easiest of culture, growing 6 to 8 feet, hardy; profitable and satisfactory nuts to grow, succeeding in all kinds of soil, bearing early and abundantly. Nuts nearly round, rich and of excellent flavor. 2 to 3 feet, 75c each.

HICKORY, Shellbark—White and shell thinner than any other. Also valuable for its timber. 2 to 3 feet, \$1.50

PECAN—The tree is of tall growth and bears abundantly. Shell very thin, kernel sweet and delicious. 2 to 3 feet, \$1.50 each.

WALNUT, English—A fine, lofty growing tree, with hand-some, spreading head. Produces large crops of thin shell, delicious nuts. 3 to 4 feet, \$1.50 each.

WALNUT, White (Butternut)—A fine native tree, producing a large longish nut prized for its sweet, oily, nutritious kernel. 3 to 4 feet, \$1.00 each.

Catalpa Bungeii

WEEPING TREES

Much attention is now given to this class of trees and we place them separately for the convenience of our patrons. The superior grace and beauty of the weeping varieties render them especially adapted to the yard, lawn or cemetery. No collection is complete without them. Among ornamentals they have no superior

der them especially adapted to the yard, lawn or cemetery. No collection is complete without them. Among ornamentals they have no superior.

BIRCH, Cut-leaf Weeping—Undoubtedly one of the most popular of all weeping or pendulous trees. Tall and siender, graceful, drooping branches, silvery-white bark, delicately cut foliage; it makes attractive specimen. Vigorous. 4 to 5 feet, \$2.50; 5 to 6 feet, \$3.50.

CATALPA BUNGEI—(See ornamental and decidous shrubs).

ELM, Camperdown Weeping—Its vigorous, irregular branches which have a uniform weeping habit, overlap so regularly that a compact roof-like head is formed. Leaves large, glossy, dark green. Strong, vigorous grower. Finest weeping elm and one of the best of weeping trees. 6 to 8 feet, \$2.50 each.

MULBERRY, Tea's Weeping Russian—One of the finest and most graceful weeping trees, forming an umbrella-shaped head with slender, willowy branches, drooping to the ground. Foliage is beautiful, leaves distinctly lobed. Tree perfectly hardy, enduring the severe cold of the North and extreme heat of the South. Very desirable. More planted than all other weeping trees combined. 6 to 8 feet. \$2.50 each.

WILLOW, Babylonica—A well known and most graceful tree of large size. Its fresh, bright green tint and long, wavy branches make it very attractive for planting by streams and ponds. 8 to 10 feet, \$2.50 each.

SOME POPULAR SPECIMENS OF OUR ROSE FAMILY HYBRID TEA ROSES HARDY HYBRID-NOT EVERBLOOMING DWARF EVERBLOOMING RAMBLERS

\$1.00 each, \$9.00 per dozen.

BLACK PRINCE—It is much sought after because of its dark crimson flowers which are shaded dark.

A Greater Part of Your Life Is Spent at Home. Why Not Make It Beautiful?

For all around the year satisfaction, Evergreens fill the bill. Their many varied types sound a pleasant note of contrast when planted among deciduous neighbors. Their amazing colors and changing shapes throughout the year are never ending sources of joy and pleasure. From the very day they are planted they are most decorative and useful. Time only intensifies their beauty and piles up their usefulness with compound interest.

Planted as screens or hedges they fill their

Planted as screens or hedges they fill their office admirably three hundred and sixty-five days in the year.

For shutting out objectionable features very pretty group effects can be produced that focus the at-

Stay, stay at home, my heart, and rest:
Home-keeping hearts are happiest,
For those that wander they know not where
Are full of trouble and full of care;
To stay at home is best.
Weary and homesick and distressed,
They wander east, they wander west,
And are baffled and beaten and blown about
By the winds of the wilderness of doubt;
To stay at home is best."—Longfellow.

tention and create a definite interest; a bit of landscape is produced and the objectionable features are completely lost sight of.

In foundation plantings they add beauty and distinct charm throughout the entire year. During the summer season their many delightful tints of green, blues and yellows create wonderful daily changing effects which dim if not altogether obscure all other plantings. In winter there is a grandeur about an Evergreen planting that is converge. that is supreme. On bleak, dark days they lend their touch of color and brighten the entire home.
